

## BRS MANAGEMENT SERVICES, our profile

BRS is an international certification body accredited to carry out activities for validation, branding, inspection and management systems assessment and certification. We are headquartered in California USA and operate in Europe, Euro Asia, Middle East & North Africa, Asia Pacific and South America. Operates through exclusive qualified and certified professionals. BRS focus on regulatory affairs programs based internationally recognized and generally accepted benchmarks, which may include client-organizations specifics. We operate within areas of quality, environment, medical, food safety, security, information technology, health & safety and enterprise social responsibility.

BRS position is to deliver consumer-centric adding-value solutions to client-organizations within a seamless free market economy. Our expertise is in sector industries for manufacturing, services, security, food supply chain, chemical, biological, radiological, medical, avionics... Including risk based programs.

BRS has provided best-in-class consumer-centric adding value validation, certification and inspection services to major brands and national programs throughout the world. We provide validation, branding, and certification programs in accordance to technical specifications, regulations, public standards and proprietary standards. We do not provide training, consulting or activities that instigate questionable services.

### Our Mark Recognized as Best-In-Class

The BRS mark is globally recognized as a symbol of consumer protection, best-in-class adding value commitment, reliability and trust. While others seek to issue the most certifications we strive to be the best option for client-organizations. Our clients choose the road less traveled full of satisfaction and rewards. We provide among other recognizable certification programs:

QMS ISO 9001	ISMS ISO/IEC 27001
